

Quadrant Agent E&O Programs

A place with partners that you get to know and that get to know you...

We look for partners who value relationships on all sides of a policy, where getting insurance coverage feels like a service and not just a transaction.

Where you are valued beyond the effective date...

When you have a claim wouldn't you rather have someone you know in your corner?

A place and a team where relationships matter...

It is no accident that Quadrant has successfully navigated the tumultuous Agents E&O Market since 1989. Working with wholesalers, retailers or directly with insureds, we are here to help!

Three Agents E&O Programs

We have 3 Agents & Brokers Professional Liability programs that are tiered to reach most types and sizes of firms. Based upon the risk's needs and our markets' appetites we match each risk with one of our programs for the best fit. We don't quote one of our programs against another. If your risk doesn't fit one of our programs, we also have access to highly rated wholesale markets.
